

# Silverline Tutoring Inc. obtains official 501(c)(3) status

*Silverline Tutoring Inc. obtains official 501(c)(3) status and celebrates its ever growing international expansion*

Silverline tutoring celebrates international expansion with 7000 tutoring sessions, 4000 hours tutored yearly, and 1000 members.

Silverline Tutoring is an educational 501(c)(3) nonprofit organization founded in 2021 connecting tutors and students in a community with about 1000 dedicated members. Founded by college and high school students, we recognize the difficulty of learning—we've all been there. From the depths of math to complex texts in English, every student has struggled. We want to bridge this divide in education by providing free tutoring to any student. Education is a core fundamental of every person's journey, and we're here to help. Our revolving and self-serving tutoring system enables previous students to become future tutors after gaining expertise in a topic. Becoming a student or tutor at Silverline has never been easier. We cut out the costs that large tutoring services charge and do not compromise on quality.

Abdu-Allah Ahmed, an 8th grader from Egypt says "I like how the tutors are very friendly and explain the topics in a very understanding way. They are quick to respond whenever I have a question. This organization is great if you want to improve in any subject or if you want to work on a hobby such as chess."

David G. A Freshman at Northeastern University illustrates "I had a couple of problems with my intro to chem class in college and I got all the help I needed from the chemistry tutors at Silverline Tutoring. Would recommend it to anyone who is looking for help!"

“Silverline Tutoring truly disrupts the current education market in areas like the SAT. Our system allows tutors to stay active and feel fulfilled after volunteering. Since covid-19, barriers to high quality education online have dwindled, with many students feeling burned out, but Silverline truly understands the struggles of kids and helps break those barriers that prevent students from experiencing quality education and success in academics.” Says CEO and Founder Rishi Ajmera.

Furthermore, Silverline works to inspire today's youth in making impacts on their communities and to encourage students to take pride in their progress. Silverline recently obtained and announced their red cross donation page, where members of their community can donate to causes they are passionate about around the world through the organization.

Silverline offers free learning opportunities for anyone grades K-College on all curricular subjects: Math, Science, English, Social Studies, Foreign Language, Test Prep, College Prep, as well as Programming, computer science, and chess. Additional information can be found on our website [here](#).
